Bachelor of Science in Software Engineering

Lutsk National Technical University, Lutsk, Ukraine

2022 - Present

- Web development for student projects, focusing on both front-end and back-end technologies.
- Collaborating on academic projects involving database management, API integration, and responsive web design for real-world applications.

LANGUAGE

- English
- Spanish
- Ukrainian

PROFILE

I am a full-stack developer with experience in building web applications using modern technologies. I focus on creating user-friendly front-end designs and reliable back-end systems. My goal is to build efficient, scalable applications that provide a smooth user experience. I enjoy learning new tools and frameworks to stay up to date with the latest industry trends.

SKILLS

- Front-End: TypeScript, HTML, CSS, JavaScript, React, Next.js, Vite.js, Tailwind CSS
- Back-End: Node.js, Express.js, Python, Flask, Django, Socket.IO
- Databases: MongoDB, MySQL
- Other: Git, GitHub, Elasticsearch, Kibana, RabbitMQ, Docker

HOBBIES AND INTERESTS

- Web3 Development: Interested in blockchain technologies and developing decentralized applications.
- Marketing: Enthusiastic about digital marketing strategies and their application in tech projects.
- Traveling: Love exploring new cultures and learning about different perspectives.
- Reading: Interested in books related to technology, entrepreneurship, and self-development.
